

We at AMEY INCORPORATION strive to achieve customer satisfaction by providing products and services related to OUR PRODUCTS that match requirements in terms of delivery, service and product sustainability, which builds rewarding relationship with our customers. We will achieve this by employee involvement, continual improvement and effectiveness of quality management systems.

Quality is a key driver at AMEY INCORPORATION and at the heart of our working. A systems approach to ENERGY management perfected over the years, the use of modern equipment, teams of highly skilled and experienced TECHNICIANS, quality tools and continual research throughout ensures superior and consistent quality.

Senior Engineers for all processes, elaborate documentation and reporting, in-organization quality audits, scheduled management visits and periodic reviews ensure quality and services on-time. We do undertake AMC's of security systems / UPS of all types. The attributes of our clients, their repeat business are a testament to our quality and our commitment to customer satisfaction pertaining to service...
